

The user's journey with Vonage:

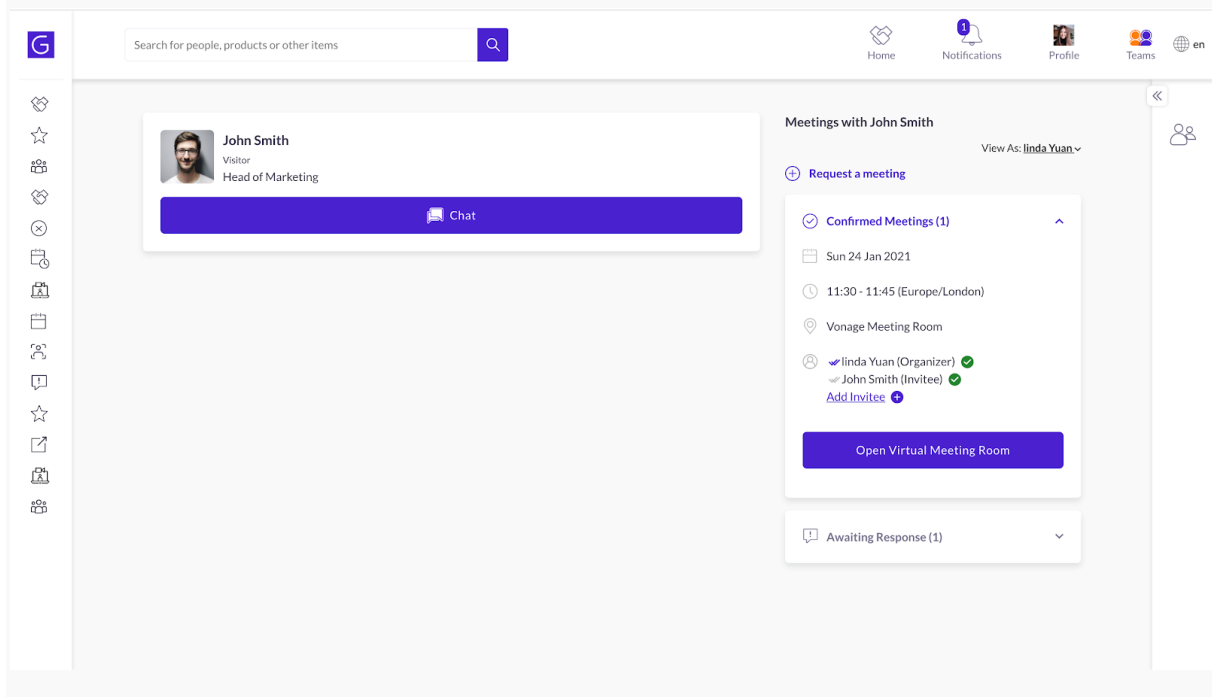

The process of booking a meeting powered by Vonage is the same as those powered by Whereby.

1. Request a meeting and if confirmed by the other party, you'll see a grey button 'Open Virtual Meeting Room':

This screenshot shows a user interface for a meeting. On the left, there is a profile card for John Smith, a Visitor and Head of Marketing, with a blue 'Chat' button. On the right, under 'Meetings with John Smith', there is a 'Request a meeting' section. It shows a confirmed meeting for Sun 24 Jan 2021 from 11:30 to 11:45 (Europe/London) in the Vonage Meeting Room. The meeting is organized by Linda Yuan and John Smith is an invitee. A grey button labeled 'Open Virtual Meeting Room' is visible, along with 'Cancel' and 'Reschedule' buttons. Below the buttons, a message states: 'Virtual meeting room will be available 5 minutes before meeting starts.' At the bottom, there is an 'Awaiting Response (1)' section.

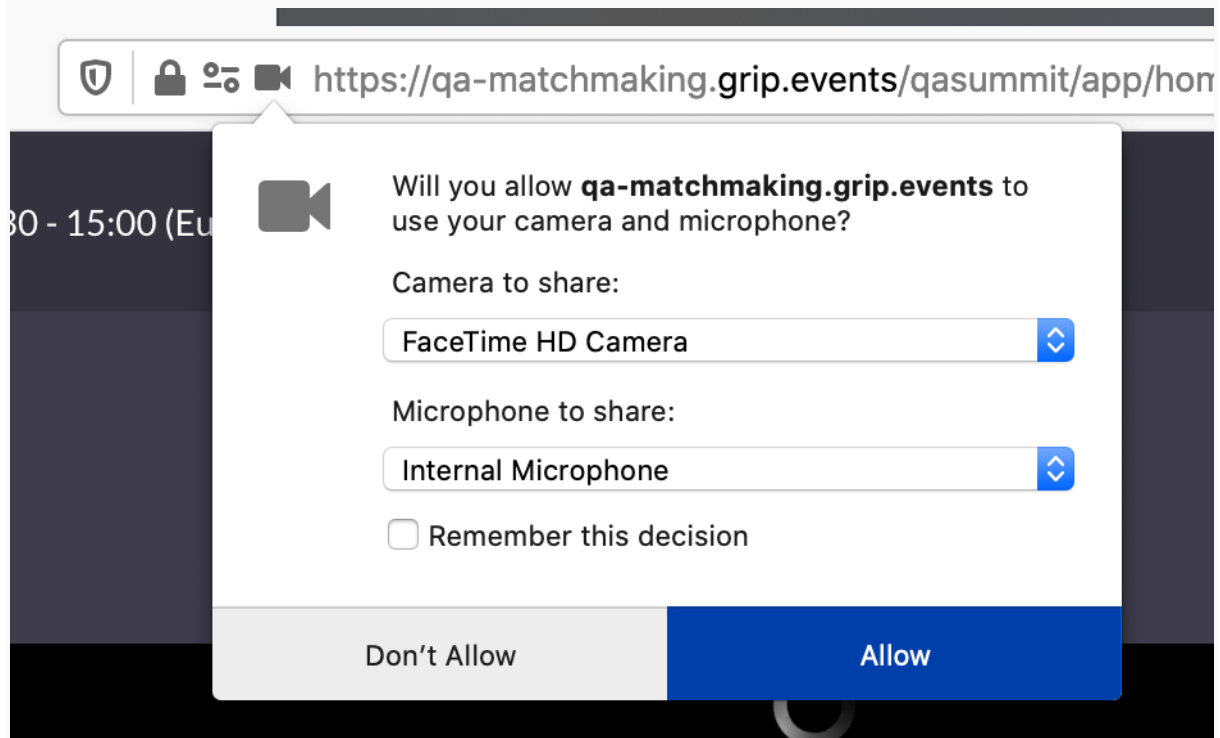

2. You can enter a meeting room up to 5 minutes before a meeting starts, when the 'Open Virtual Meeting Room' button is no longer grey.

This screenshot is identical to the one above, but the 'Open Virtual Meeting Room' button is now blue, indicating that the user can enter the meeting room up to 5 minutes before the meeting starts.

3. Browser permissions to use the camera and microphone

At the first launch of the virtual meeting room, your browser will ask you to allow Grip Networking Platform access to your microphone and camera. If by mistake you chose the block option and your camera or microphone doesn't work, you can always click on the camera icon displayed in the browser access bar and change your permissions

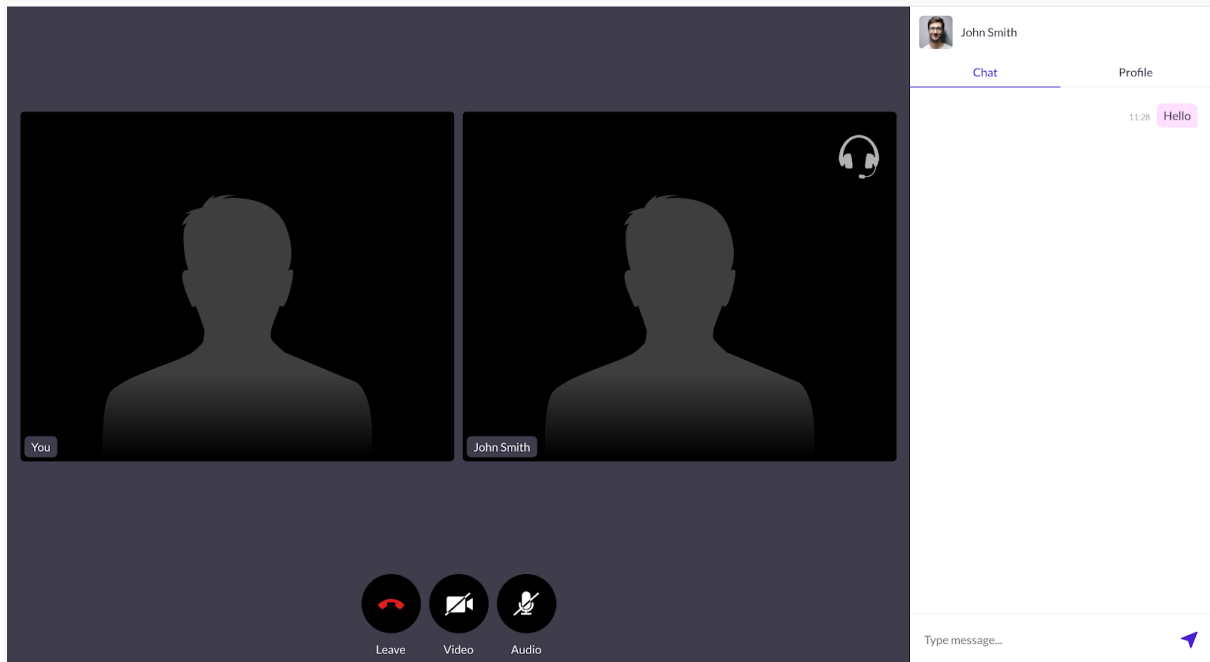

You can always change your camera & microphone permissions directly in your browser settings. You will find detailed instructions specific to your browser in a respective article below:

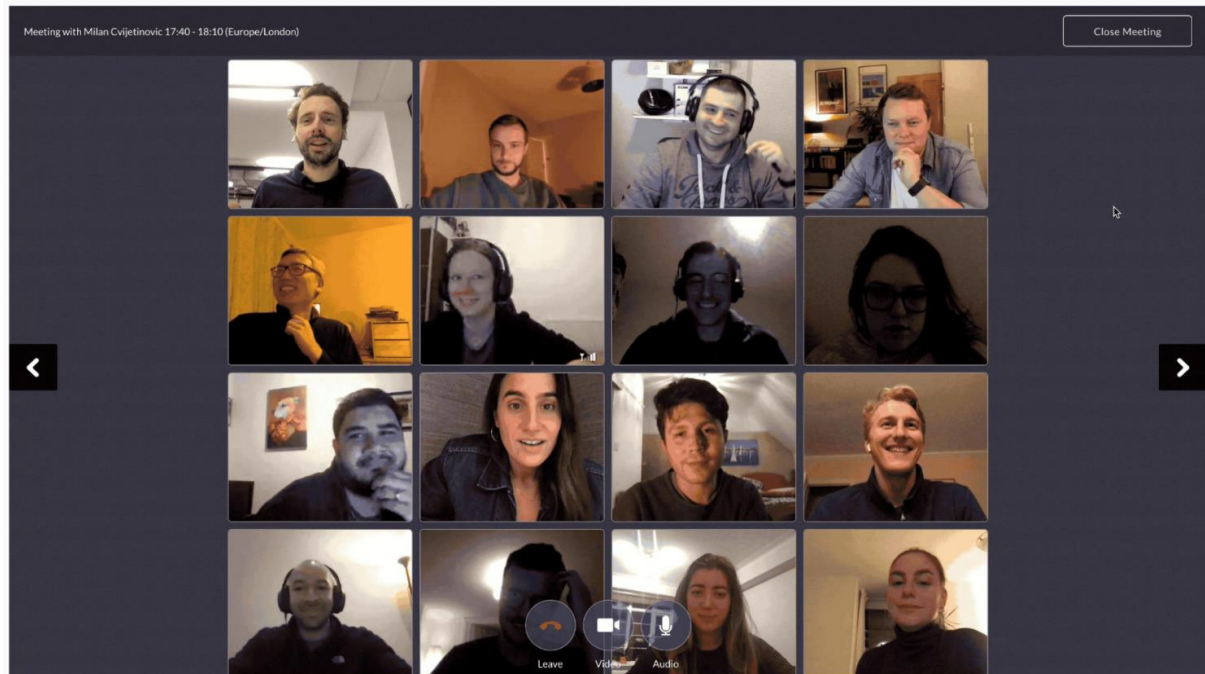

- [Google Chrome](#)
- [Safari](#)
- [Firefox](#)
- [Microsoft Edge](#)

View from inside the meeting room:

1-1 view

Multi-user view (of up to 50 people)

Screen Sharing

The image shows a Zoom meeting interface with two participants: 'You' and 'Callum'. A red arrow points to the screen sharing icon in the bottom toolbar. Below the meeting window, a browser window is open to a profile page, and a 'Choose what to share' dialog is displayed. The dialog offers three options: 'Entire screen', 'Window', and 'Chrome Tab'. The 'Entire screen' option is selected. The browser window shows the URL 'qa-matchmaking.grip.events/qasummit/app/profile/299828' and a chat window with the message 'Hey, how's it going?'.

Piotr Podhajski is presenting

The screenshot shows a Zoom meeting interface. On the left, a presentation slide for 'Grip' is displayed. The slide has a dark blue background with white text. The main heading reads 'Events mean Business. Accelerate Lead Generation and Revenue Opportunities.' Below this, there is a sub-heading and a paragraph of text. A 'REQUEST A DEMO' button is visible. The slide also features a screenshot of the Grip application interface. At the bottom of the Zoom window, there are icons for microphone, video, chat, and a red 'X' icon. On the right side of the Zoom window, there are two video thumbnails. The top one is labeled 'You' and shows a man with glasses and a beard. The bottom one is labeled 'Piotr Podhajski' and shows a man with a beard. To the right of the Zoom window, there is a sidebar with the name 'Piotr Podhajski' at the top, followed by 'Chat' and 'Profile' tabs. At the bottom right of the sidebar, there is a 'Support' button with a question mark icon.
